Build your ethical base through practical application and curriculum.

Bellevue University prides itself on giving students a practical, real-world education. Not only will you gain the on-the-job skills for a public or social service job through field work and projects, you'll also learn about ethical responsibility. Already in public or social service? The coursework in our public and human services programs can help you see your role in a new light and build on the experience you have as an advocate, servant and protector in your community.

No barriers so you can start helping those who need it most.

Bellevue University makes attaining your human services degree as streamlined as possible. No standardized tests such as SAT and ACT are required for entry on the bachelor's level, nor are any GRE or GMAT needed for the master's level. If you're a person who values the impact you have on others, human services and public services degrees can prepare you for an exciting, fulfilling vocation.
