

SUNY Broome Microcredential Costs 2025-2026

How we got our numbers:

Tuition for New York State residents is \$243 per credit, and for out-of-state residents it's \$486 per credit. US veterans/eligible spouses/eligible dependents pay \$243 per credit. In addition to the tuition cost of your microcredential (see our "cost per X credits" table below) you will need to add the appropriate amount of fees based on your situation. Fees vary depending on:

- whether you are a full-time or part-time student
- how you are taking your courses – fully online, all in person, hybrid
- how many semesters it takes you to complete the microcredential (it's more economical to take multiple classes in one semester when possible)
- whether or not your classes include labs or extra program fees

Some microcredentials include courses with prerequisites that require spreading the classes over more than one semester, or include courses that are only offered in the fall semester or spring semester, not both.

Microcredential courses are not offered on demand (i.e., no mid-semester start) – you must enroll on the semester schedule.

Required Fees For All Students Per Semester, 2025-2026

Fee	Part-Time Cost	Full-Time Cost
Student registration	\$132	\$159
Technology	\$344	\$354
Student services	\$170	\$340
